

Concept C — Lively & Animated

Watch your kid's day bloom.

Every finished task blooms a flower on their path — a living, growing view of the day, cheered on in real time.

6-day streak — two more blooms to a full garden

One tap. A little celebration.

Every completion gets its own small burst — enough to feel earned, never enough to be a distraction.

Homework block

+20 points → bloom added to today's path

A path, not a checklist

Today's tasks are stepping stones. Finishing one blooms it — the whole day becomes a garden to look back on.

Parents tend the garden too

Every bloom notifies both parents. A quick check-in, then approve — or it blooms on its own after a day.

Streaks grow the whole yard

Consecutive days unlock bigger garden scenes and real rewards, hand-picked by you.
